

Sealed Beam Lamps

Safety and reliability are paramount to aircraft operators. They are to us, too. Oshino's PAR64, PAR36 and PAR46 sealed beam lamps are certified to the following standards as applicable:

-  ANSI-SR25D1997
-  ANSI-ANSLGSR26d-2002

Applications:

-  Wing
-  Taxi
-  Landing
-  Tail
-  Logo

The Oshino Difference:

-  Filament integrity when subject to MIL-DTL-6363H, section G random vibration durability tests.
-  Longer life in excess of 2,000 minimum hour specification other manufacturers.
-  Higher lumens as compared to specifications and other manufacturers.
-  Tip-to-tail lamps, many included in OEM IPCs.
-  100% process control from raw materials procurement through shipping—we are the manufacturer.
-  Exceptional technical and customer service.
